

Vengold - FS (Wholesome Organic Nutrition)

Benefits of Vengold - FS:

- Vengold- FS is a proprietary research product containing carefully tested organic ingredients which trigger the metabolic activities going on in the plant system.
- The natural synthesis of various metabolites during physiological changes helps fulfil the demand of all the nutrients by pulling it from the soil.
- Vengold- FS helps in lush green vegetative growth.
- Increases fertility of crops.
- Helps in better flowering and decreases flower dropping.
- Helps in better fruit setting and size.
- Helps in natural colour development of the fruits.
- Helps in enhanced keeping quality & better market price.

Features of Vengold - FS:

- Vengold– FS is an organic product.
- Increasing plant metabolic activities & provide nutrients those needs in crop development stages.
- Savings in 20 to 40% chemical sprayings.
- Increase 20 to 50% yield.
- Vengold– FS is completely safe for humans, animals, birds & the environment.

Doses:

For Vegetable & Field crops:

- 1st spray: peak vegetative growth phase @ 1 gm per liter of water.
- 2nd spray: flowering stage @ 1 gm per liter of water.
- 3rd spray: fruit development stage @ 2 gm per liter of water.

For Fruit Crops:

- 1st spray: peak vegetative growth phase @ 1 gm per liter of water.
- 2nd spray: flowering stage @ 1 gm per liter of water.

- 3rd spray: fruit setting stage @ 2 gm per liter of water.
- 4th spray: fruit development stage @ 2 gm per liter of water.
- 5th spray: fruit development stage @ 2 gm per liter of water.

Precaution:

- For excellent results spray it in morning before 11:00 AM or after evening 5:00 PM.
- The soil should be moist at the time of spraying Vengold – FS or after spraying irrigate land.

Compatibility: Vengold– FS is compatible with almost commonly used pesticides, fungicides, plant growth regulators etc. Except with those having alkaline reaction or produces alkalinity. Still we recommend to go for jar test before mixing other products.
